Shane -

I think we've known each other since our sons were in
boy scouts together.... maybe 6 years? 8 years? Still, when I
needed to pave my driveway with pavers, I called at least 10
paver installers... I narrowed my selection to 2. Then... you.
I'm extremely happy with your work. I love the fact that
you always answer your phone or call me back within a couple
of hours. You really make me feel that I'm cared for by a
professional. You make me feel like I'm "He only me!"

Your workforce men are polite and they work continuously
from when they arrive until when they depart. They never
seem to mind when I approach them to make any minor
changes.

I really wish that I could have you do more work for
me, or have other contractors' respond as you do. I'm so
glad that you're my contractor. Oh... did you're guys lay
86 pallets of pavers or 88 pallets?
