Legend® and Impressions® vinyl fencing combines elegant appearance with superior performance.

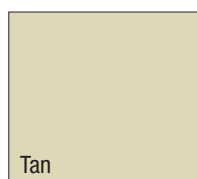

Vinyl Fencing by Master Halco is **low-maintenance**, so you can forget about ever needing to paint, sand or stain your fence again!

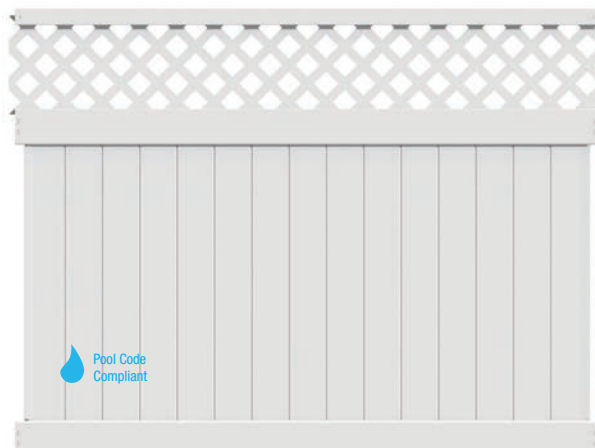

Our 100% vinyl PVC combines the most stringent quality standards with the most innovative compounds to produce a product that won't peel, flake, corrode, rot, rust or attract termites.

Friction fit rails distribute weight across the top and bottom of the fence panel, minimizing panel sag.

Aluminum support inserts are not needed, except on 8 foot Impressions® panels.

Available in White and Tan.

Wood Fencing

**MASTER
HALCO®**

A Tradition of Fencing Solutions

The consistent performance and availability of our wood fencing systems offers an excellent array of design options. We use low-density cedar, redwood, pine and cypress soft woods in our fences because they are less likely to warp, check or change dimension. Combinations with innovative products such as our engineered steel posts let you design a system that will meet local wind-load requirements.

Privacy Wood Fence

Wood privacy fence systems can provide a solid barrier between properties. The many designs possible with wood allow you to create a fence that's both beautiful and functional.

Picket Wood Fence

There are an unlimited number of styles to choose from when planning a picket fencing system. The style simply depends on its use: borders, protection, or privacy.

The Original PostMaster®

PostMaster steel posts provide engineered long-lasting durability for wood fencing. Constructed of heavily galvanized structural steel, PostMaster can withstand high winds and heavy rain, and will never warp or rot — guaranteed with a 15-Year Limited Warranty.

Adjust-A-Gate™ Steel gate frame

The adjustable, Adjust-A-Gate system is ideal for repairing an old gate or building a new one. Including all necessary hardware and parts, your gate is assembled onsite to get the job done right, the first time. Add rails and fence boards; you will have a gate for life.

ADJUST-A-GATE™ STEEL GATE FRAME

60"-90" Kit - Consumer Series	044905

A Tradition of Fencing Solutions

POSTMASTER™

THE ORIGINAL STEEL FENCE POST SYSTEM

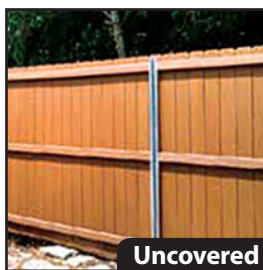

Mother Nature IS NOT SWEET.

Every so often a product comes along that revolutionizes an industry. **Master Halco's** patented **PostMaster** wood fence post system harnesses the strength of steel posts without sacrificing the craftsmanship and beauty of a natural wood fence. With a 15-year limited warranty, it's engineered and designed to withstand Mother Nature's elements with ease.

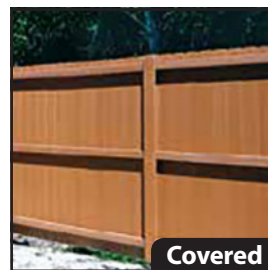

No joke. It's a new standard for wood fences!

- *Will never twist, warp, or rot.*
- *Withstands harsh winds and heavy rain.*
- *Eliminates additional brackets/fittings to you save time and money.*
- *Fence design is only limited by your imagination.*
- *Works on Wood and Endwood® Fence Systems.*

Chain Link Fencing

GOOD, BETTER, BEST

MASTER HALCO CHAIN LINK FENCING

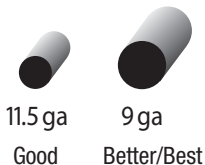

Known for its strength and durability, chain-link is perhaps the **most economical** type of fencing available. Master Halco lets you choose from a wide range of weights (or gauges) and coatings. So it's easy to enhance your landscaping with a fence that blends naturally with trees, shrubs, and bushes

- Residential chain-link fence systems are commonly used because they're secure and durable.
- All galvanized steel components are hot-dip zinc coated
- Color fencing has an additional 3 mil polyester coating
- Some fence components are made of rugged die-cast aluminum
- Residential chain-link systems preserve views and provide tranquility to almost any property.

	Type	Brand	Warranty	Features		Notes
				Fabric	Frame	
GOOD	Lightweight Chain Link		12 Year	11.5 Ga.	17 Ga.	Economical
BETTER	Galvanized Chain Link		12 Year	9 Ga.	16 Ga.	The standard for security
BEST	Color Chain Link		12 Year	9 Ga.	16 Ga.	Blends beautifully with the environment.

FIELD

WILDLIFE

Good fencing presents barriers to restrict animal movement or mark boundary lines.

Traditional livestock fencing materials include barbed wire, woven and welded mesh fencing or combinations of these materials.

- All wire fences are 100% melted and made in the USA
- Available in Class 1 and Class 3 Galvanization · Other styles are available
